**Page and Line Number: Pg. 53 Line 651**

**Amendment language:**

Strike the following two sentences: “Approximately \$879,950 of 2024 Medicaid claims for PfZ costs are expected to be unreimbursed. We will monitor 2023 spending and prioritize this need in our request to carry forward any unspent funds into 2024.”

**Effect Statement:**

This amendment provides for a technical revision staff had intended to incorporate in the previous draft. This level of detail was identified to be inconsistent with the level of detail throughout the rests of the draft Plan. Removing creates more consistency across level of information in the document.
