Organizational Overview

The King County Regional Homelessness Authority (the Authority) oversees all homelessness related programming and prevention initiatives in the Seattle/King County region. Created via an interlocal agreement between the City of Seattle and King County in 2019, the Authority is charged with building and implementing a regional approach to ending homelessness in King County. To accomplish this, the Authority is specifically tasked with:

1. Engaging and centering people with lived experience;
2. Focusing on justice-based approaches to actively address disproportionalities in the population experiencing homelessness; and
3. Integrating the perspectives of a wide range of stakeholders across King County through a sub-regional planning process that recognizes the unique attributes of communities within the county.

Team Overview

The programs team at the Authority is responsible for program, strategy, and system development for grant-funded service provider programs. This includes program design, community planning and system integration, as well as targeted troubleshooting and implementation support through problem-solving with service providers, and close coordination with the Grants Management and Capacity Building teams within the Program Delivery and Performance division of the Authority. The team has direct lines of interaction with all offices across the agency, working closely with the Executive Office to ensure direct alignment with the big-picture strategy and goals. As with all parts of the Authority, the system performance team will work closely with people with lived experience to ensure service provision is closely aligned with the needs of people experiencing homelessness.

Individual Program Specialists may take on in-depth program content knowledge for specific subpopulations among people experiencing homelessness, or for specific system components, such as permanent housing or outreach programs. Applicants are encouraged to identify where their primary areas of expertise are as part of the application process.

In the initial implementation phase of the Authority, there are significant systems integration and implementation projects that the Authority and the Program Delivery and Performance division will undertake, and the Program Specialist will engage in various projects to support those projects.
