Coordinated Entry

CE CEC Presentation 11.30.23

Previous Process

Expand the pathways into resources:

- Previous process limited housing referrals to a small subset known as the Priority Pool
  - Delays in engagement and rapport building
  - Scarcity of available housing Navigators system wide

KCRHA

Current Process

- Multiple pathways into housing placement

- Anyone experiencing homelessness eligible

- Reverse Matching – providers nominate those who they are already working with AND help navigate them into housing

Prioritization – Admin Data

- Non-invasive
  - No potentially re-traumatizing litany of questions
- Administrative Data already collected by professionals in their field
- Iteration <u>does not</u> lead to a system-wide re-assessment of everyone
- More equitable outcomes

COVID Prioritization v2 Risk Factors

- Age

- Race & Ethnicity

- Gender Identity

- Pregnancy Status

- Medical & Behavioral Health Conditions

Prioritization - Current

Tiebreaking:

1. Self-Reported length of current episode
2. Survivors fleeing or attempting to flee
3. Unsheltered

Prioritization - Current

Challenges:

1. Lack of Equity
2. Length of Time Homeless is Determining Factor
