### **Are there any other opportunities for cities outside of Seattle within King County?**

Your agency is qualified if you offer your services within the city in Seattle. Please continue to check the KCRHA website for upcoming funding opportunities.

### **Is the expectation that the agency awarded funding will use their own property to provide services? Does the location we plan to use affect scoring?**

The location will be a city-owned site determined by KCRHA.

### **Would you consider partnerships with a service provider operating out of our facility if we are not offering services ourselves?**

This funding is specific to opening up Seattle sites for services providers. This funding is not for service providers to open up additional sites outside of the designated sites we have from the city of Seattle.
