I. Introduction

The Capital Repair and Improvements for Seattle Shelters Serving Youth and/or Young Adults (YYA) Request for Proposals (RFP) is seeking proposals from qualified agencies providing shelter services to youth and/or young adults experiencing homelessness in Seattle for capital repairs. The intent of the RFP is to improve the physical and mental well-being of YYA experiencing homelessness by improving the physical environments of the shelters they use.

The City of Seattle, through a Participatory Budgeting process, has appropriated \$1,850,000 for capital repairs and/or improvements to existing shelters serving youth and/or young adults ([Ordinance No. 127154](#)). KCRHA seeks to partner with applicants who can demonstrate how their services incorporate direction, authentic partnership, and feedback from YYA with lived experience of homelessness.

Centered in [KCRHA's Theory of Change](#), all proposals will be reviewed to ensure completeness, alignment with the program scope, and budget feasibility. The rating team will recommend proposals to be funded, giving preference to proposals that demonstrate how the proposed project will support confidentiality, increase privacy, expand capacity, or modernize the facility. Potential projects may encompass necessary repairs to maintain facility operations or enhancements designed to create a welcoming and restorative environment for youth and/or young adults accessing shelter services. KCRHA anticipates to award at minimum one and up to four agencies.

The deadline for submitting a completed RFP is June 23, 2025, 11:59 PM PST.

II. Fund Source

Of the appropriations in the City of Seattle Human Services Department (HSD) 2024 general fund budget, \$1,850,000 is appropriated solely for capital repairs and/or improvements to existing shelters serving youth and/or young adults and may not be used for any other purpose. Funds must be spent and all repairs and improvements must be completed by December 31, 2026. The following is the fund source and budget supporting this project:

Fund Source	City of Seattle General Fund
Total	\$1,850,000.00

IV. Scope of Work

KCRHA is looking to fund proposals that demonstrate the need for capital improvements¹ to existing facilities that improve the wellbeing of youth and/or young adults that are shelter residents. Organizations must serve Youth (12-17) and/or Young Adults (18-24) experiencing homelessness, but organizations do not need to exclusively serve youth and/or young adult populations to qualify.

Proposals must include timelines to expend all funds prior to December 31, 2026, and must be a one-time expense that will not result in a need for additional, ongoing operating funds. Eligible enhancements under this grant include projects that support confidentiality, increase privacy, expand capacity, or modernize the facility. Potential projects may encompass enhancements designed to create a welcoming and restorative environment for youth and/or young adults accessing shelter services.

Agencies must have a work plan that clearly defines the goals and objectives of the proposed improvements/repairs, what agencies will complete the steps of the project or how contractors for the project will be identified, any potential permitting or zoning issues and possible solutions, and if displacement of shelter residents that will occur as a result of the proposed project and steps that will be implemented to minimize displacement and disruption.

Include in the workplan a subcontractor/vendor evaluation, including how your agency will ensure construction quality standards, price and cost structure, financial stability licensure bonding, and compliance with any pertinent prevailing wage state.

Applicants should plan for regular on-site and/or virtual visits with KCRHA Staff or Representatives to demonstrate progress and project completion if awarded.

Agencies must provide a timeline that identifies key milestones and deliverables throughout the project and describes the methods and frequency of progress reporting to stakeholders and funders. The timeline must include the estimated date when 25 percent and 75 percent of the total funds available will be expended. 100 percent of the total funds available must be expended by December 31, 2026.

¹ **Capital Improvements** increase the value of a structure, as opposed to maintenance and repair costs that only maintain the current value of the structure.
